New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **April 1, 2022**.

For a typical customer the total annual bill increase will be \$43.52. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. This charge also includes the cost of storing natural gas so it's available when you need it. Also included in Delivery to You is a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

Federal Carbon Charge

The federal carbon charge has increased from 7.83 ¢/m³ to 9.79 ¢/m³. This charge increases annually each April. All of the money collected for this charge goes to the government.

Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Rate Adjustment

The OEB has approved a rate adjustment to reflect the clearance of 2020 federal carbon deferral and variance account balances. This will appear as a one-time charge on customers' April bills, and for a typical customer this will be a charge of approximately \$0.27.

The OEB has also approved a rate adjustment to reflect the clearance of 2020 deferral and variance account balances. This will appear as a one-time charge on customers' April bills, and for a typical customer this will be a charge of approximately \$0.78.

The adjustments will be combined and appear as a single Rate Adjustment line item on your bill.

Charges for gas used from April 1, 2022 will be calculated using the new approved rates as shown below. The annualized impact is based on a typical Rate M1 - Union South customer who uses 2,200 m³ per year while buying gas from an energy marketer.
