## New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Jan. 1, 2023**.

For a typical customer the total annual bill increase will be \$24.96. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

### Customer Charge

The customer charge increased to \$23.98 a month to partially recover some of the fixed costs associated with maintaining a safe and reliable natural gas distribution system.

### Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

### Transportation to Enbridge

The transportation charge has decreased by approximately \$4.74 per year for a typical customer due to lower costs for transporting natural gas to Ontario.

### Federal Carbon Charge

The federal carbon charge is 9.79 cents per cubic metre (¢/m<sup>3</sup>). This charge increases annually each April. All of the money collected for this charge goes to the government.

### Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

### Cost Adjustment

The current adjustment is a refund of 0.0349 ¢/m<sup>3</sup>. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the included chart for the breakdown by component.

### Rate Adjustment

The OEB has approved a rate adjustment to reflect the clearance of 2021 deferral and variance account balances. This will appear as a one-time charge on customers' January bills, and for a typical customer this will be a charge of approximately \$7.42.

Charges for gas used from Jan. 1, 2023 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate 01 - Union North East customer who uses 2,200 m<sup>3</sup> per year while buying gas from an energy marketer.
