

April 2024

Natural gas rates have changed

Rate 01 - Union North East
Energy Marketer Customer

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **April 1, 2024**.

For a typical customer the total annual bill increase will be \$59.59. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery rates that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has decreased from 0.0157 cents per cubic metre ($\text{¢}/\text{m}^3$) to 0.0143 $\text{¢}/\text{m}^3$.

Transportation to Enbridge

The transportation charge has decreased by approximately \$0.29 per year for a typical customer due to lower costs for transporting natural gas to Ontario.

Federal Carbon Charge

The federal carbon charge has increased from 12.39 $\text{¢}/\text{m}^3$ to 15.25 $\text{¢}/\text{m}^3$. This charge increases annually each April. All of the money collected for this charge goes to the government.

Visit enbridgegas.com/federalcarbonprogram for more information.

Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Cost Adjustment

The current adjustment is a refund of 0.0819 $\text{¢}/\text{m}^3$. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the included chart for the breakdown by component.

Rate Adjustment

The OEB has approved a rate adjustment to reflect the clearance of 2022 deferral and variance account balances. This will appear as a one-time adjustment on customers' April bills, and for a typical customer this will be a charge of approximately \$2.43.

The OEB has approved a rate adjustment to reflect the clearance of 2022 federal carbon deferral and variance account balances. This will appear as a one-time adjustment on customers' April bills, and for a typical customer this will be a charge of approximately \$1.06.

Charges for gas used from April 1, 2024 will be calculated using the new approved rates as shown in the chart. The annualized impact is based on a typical Rate 01 - Union North East customer who uses 2,200 cubic metres (m³) per year while buying gas from an energy marketer.

Charges	Rates at April 1, 2024	Annual increase or (decrease)
Customer Charge	\$23.98 Monthly fee	No change
Delivery to You		
First 100 m ³	16.7589 ¢/m ³	
Next 200 m ³	16.4816 ¢/m ³	(\$2.31)
