New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Jan. 1, 2024**.

For a typical customer the total annual bill decrease will be \$0.14. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery rates that vary with consumption decreased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you. The facility carbon charge has decreased from 0.0162 cents per cubic meter (¢/m³) to 0.0157 ¢/m³.

Federal Carbon Charge

The federal carbon charge is 12.39 ¢/m³. This charge increases annually each April. All of the money collected for this charge goes to the government.
