

October 2021

Natural gas rates have changed

Rate 01

Union North East

For customers who purchase their gas
supply from a **gas marketer**

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Oct. 1, 2021**.

For a typical customer the total annual bill increase will be \$5.13. The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

The OEB has approved a temporary price adjustment to reflect the clearance of the 2019 deferral and variance account balances. This will appear in the delivery charge and cost adjustment on customers' October to December bills, and for a typical Rate 01 - Union North East customer buying gas from an energy marketer the total will be a refund of approximately \$8.45.

Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your home or business. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

Transportation to Enbridge

The transportation charge has increased by approximately \$0.56 per year for a typical customer due to higher costs for transporting natural gas to Ontario.

Federal Carbon Charge

The federal carbon charge is 7.8300 ¢/m³. This charge increases annually each April. All of the money collected for this charge goes to the federal government. Visit enbridgegas.com/federalcarbonprogram for more information.

Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Storage Charge

The storage rate increased by 0.0101 ¢/m³ to 5.8201 ¢/m³ to reflect the increased cost of storing natural gas.

Cost Adjustment

The cost adjustment rate decreased by 0.3612 ¢/m³ to -0.6378 ¢/m³ and is in effect until Dec. 31, 2021. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the chart on the reverse for the breakdown by component.

Rate Adjustment

The OEB has approved a rate adjustment to reflect the difference between the amount customers paid for energy conservation programs (DSM) from Jan. 1, 2019 to Dec. 31, 2019 and the actual costs incurred. This will appear as a one-time charge on customers' October bills, and for a typical customer will be a charge of approximately \$0.80.

Charges for gas used from Oct. 1, 2021 will be calculated using the new approved rates as shown on the reverse. The annualized impact is based on a typical Rate 01 - Union North East customer who uses 2,200 m³ per year while buying gas from an energy marketer.

Charges	Rates at Oct. 1, 2021	Annual increase or (decrease)
Customer Charge	\$22.87	\$0.00
Delivery to You		
First 100 m ³	9.9079 ¢/m ³	
Next 200 m ³	9.6573 ¢/m ³
