

October 2022

Natural gas rates have changed

Rate 1

For **residential customers** who purchase their gas supply from a **gas marketer**

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **Oct. 1, 2022**.

The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery rates that vary with consumption increased based on our forecast cost of delivering natural gas to your home. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

Transportation to Enbridge

If your transportation service is provided by Enbridge

A 'Transportation to Enbridge' charge will appear in the top Enbridge section of your gas charges.

If Enbridge Gas provides transportation service from Western Canada and the United States to our distribution system in Ontario, the rate effective Oct. 1, 2022 is 5.2075 cents per cubic metre ($\text{¢}/\text{m}^3$), an increase from 4.0765 $\text{¢}/\text{m}^3$.

If Enbridge Gas provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system, the rate remains unchanged at 0.9694 $\text{¢}/\text{m}^3$. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

If your transportation service is provided by your marketer

Your 'Transportation to Enbridge' charge will appear with your marketer charges on your bill. The rate you pay for transportation is based on the terms of your gas marketer agreement.

Federal Carbon Charge

The federal carbon charge is 9.79 ¢/m³. This charge increases annually each April. All of the money collected for this charge goes to the government.

Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Cost Adjustment

The current adjustment includes a charge of 0.6703 ¢/m³ for delivery and a refund of 0.0955 ¢/m³ for transportation. The cost adjustment is in effect until Sept. 30, 2023. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the included chart for the breakdown by component.

Charges for gas used from Oct. 1, 2022 will be calculated using the new approved rates as shown in the chart below. The annualized impact is based on a typical residential customer who uses 2,400 cubic metres (m³) per year.
