

April 2022

Natural gas rates have changed

Rate 1

For **residential customers** who purchase their gas supply from a **gas marketer**

New natural gas rates

The Ontario Energy Board (OEB) has approved changes to Enbridge Gas' rates effective **April 1, 2022**.

The total impact on your bill will depend on how much gas you use and the terms of your gas marketer agreement.

Delivery to You

The delivery rates that vary with consumption decreased based on our forecast cost of delivering natural gas to your home. These charges also include a facility carbon charge associated with the operation of Enbridge Gas' facilities to deliver natural gas to you.

Transportation to Enbridge

If your transportation service is provided by Enbridge

A 'Transportation to Enbridge' charge will appear in the top Enbridge section of your gas charges.

If Enbridge Gas provides transportation service from Western Canada and the United States to our distribution system in Ontario, the rate effective April 1, 2022 is 3.9258 cents per cubic metre (¢/m³), a decrease from 4.4511 ¢/m³.

If Enbridge Gas provides transportation service from the Dawn market hub in southwestern Ontario to our distribution system, the rate remains unchanged at 0.9694 ¢/m³. In this case, your marketer either provides transportation service for your gas supply to the Dawn market hub or purchases gas supply at the Dawn market hub. The rate you pay for transportation and/or gas supply from your marketer is based on the terms of your gas marketer agreement and these charges will appear in the marketer section of your gas charges.

If your transportation service is provided by your marketer

Your 'Transportation to Enbridge' charge will appear with your marketer charges on your bill. The rate you pay for transportation is based on the terms of your gas marketer agreement.

Federal Carbon Charge

The federal carbon charge has increased from 7.83 ¢/m³ to 9.79 ¢/m³. This charge increases annually each April. All of the money collected for this charge goes to the government.

Gas Supply Charge

The price you pay for the natural gas you use, shown as the gas supply charge on your bill, depends on the terms of your gas marketer agreement.

Cost Adjustment

The current adjustment includes a charge of 0.4656 ¢/m³ for delivery and a refund of 0.1627 ¢/m³ for transportation. The cost adjustment is in effect until March 31, 2023. The cost adjustment reflects the true-up between actual and forecast prices for prior periods. Please see the chart on below for the breakdown by component.

Rate Adjustment

The OEB has approved a rate adjustment to reflect the clearance of 2020 federal carbon deferral and variance account balances. This will appear as a one-time charge on customers' April bills, and for a typical residential customer this will be a charge of approximately \$0.72.

The OEB has also approved a rate adjustment to reflect the clearance of 2020 deferral and variance account balances. This will appear as a one-time refund on customers' April bills, and for a typical residential customer this will be a refund of approximately \$5.29 (Enbridge provides transportation) or \$4.12 (Marketer provides transportation).

The adjustments will be combined and appear as a single Rate Adjustment line item on your bill.

Charges for gas used from April 1, 2022 will be calculated using the new approved rates as shown below. The annualized impact is based on a typical residential heating and water heating customer who uses 2,400 cubic metres (m³) per year.
